P21 - ARCHITECT BOOK III

THE ALCHEMIST
2025 EDITION

THE ALCHEMICAL ART OF COLOR

2

THE ALCHEMIST

ORDINARY INTO EXTRAORDINARY

The power to transform ordinary into extraordinary, transmuting the normal into the magnificent. The artist, like the alchemist, uses pigments to unlock emotions and evoke sensations, it's like a toolbox for designers, architects and artisans.

The right use of color it's both science and art, it reflects how we perceive it through skill and intuition, but more than just aesthetics; it's a process of change.

The alchemical art of color acts as a catalyst for change in behavior.

Le pouvoir de transformer l'ordinaire en extraordinaire, de transmuter le normal en magnifique. L'artiste, comme l'alchimiste, utilise des pigments pour libérer des émotions et évoquer des sensations, c'est comme une boîte à outils pour les designers, les architectes et les artisans. Le bon usage de la couleur est à la fois une science et un art, il reflète comment nous la percevons à travers la compétence et l'intuition, mais plus que de l'esthétique ; c'est un processus de changement. L'art alchimique de la couleur agit comme un catalyseur pour le changement de comportement.

O poder de transformar o ordinário em extraordinário, convertendo o normal em magnífico. O artista, como o alquimista, utiliza pigmentos para desbloquear emoções e evocar sensações, é como uma caixa de ferramentas para designers, arquitetos e artesãos. O uso correto da cor é tanto ciência como arte, reflete como a percebemos através da habilidade e da intuição, mas mais do que apenas estética; é um processo de mudança. A arte alquímica da cor atua como um catalisador para a mudança no comportamento.

ECO-DESIGN PRODUCTS

THE P21 - ARCHITECT BOOK III

AS NATURE BREATHES, EMOTIONS RISE

We believe in the power of design to create a greener, more beautiful world. Our products are meticulously crafted to blend sustainability with style, offering an harmonious balance between nature and modern living. From renewable materials to innovative production techniques, each collection is a testament to our commitment to environmental stewardship. Join us on a journey towards a more sustainable future where every choice makes a positive impact on our planet. Welcome to BORN • ECO, our ecological engineered products where eco-friendly design meets effortless elegance.

THE P21 – ARCHITECT BOOK

FROM NATURE TO NATURAL

Nous croyons au pouvoir du design pour créer un monde plus vert et plus beau. Nos produits sont soigneusement conçus pour allier durabilité et style, offrant un équilibre harmonieux entre la nature et la vie moderne. Des matériaux renouvelables aux techniques de production innovantes, chaque collection témoigne de notre engagement envers la gestion environnementale. Rejoignez-nous dans un voyage vers un avenir plus durable où chaque choix a un impact positif sur notre planète. Bienvenue chez BORN • ECO, nos produits écologiquement conçus où le design respectueux de l'environnement rencontre l'élégance sans effort.

Acreditamos no poder do design para criar um mundo mais verde e bonito. Os nossos produtos sãometiculosamente elaborados para conjugar sustentabilidade com estilo, oferecendo um equilíbrio harmonioso entre a natureza e a vida moderna. Desde materiais renováveis até técnicas de produção inovadoras, cada coleção é um testemunho do nosso compromisso com a gestão ambiental. Junte-se a nós numa viagem rumo a um futuro mais sustentável, onde cada escolha tem um impacto positivo no nosso planeta. Bem-vindo ao BORN • ECO, produtos ecológicos onde o design eco-friendly se encontra com a elegância sem esforço.

ECO DESIGN

A constant research encourages innovation in materials, manufacturing processes, and design concepts. This leads to the development of new technologies and solutions that benefit both the environment and society. With these premisses in mind we label as "BORN ECO" all products that are resource efficient and prioritize sustainability.

Reducing impact on the environment:
Born Eco products are designed to minimize waste production generated in the production process, which, are reintegrated and leading to a reduction in the use of natural resources up to 55%.

Products with lower thickness, which allows a reduction in the consumption of raw materials and, consequently, inherent emissions to the process by its consumption and processing.

High efficiency equipments allowing energy recovery in the production process such as hot air from the kilns and combustion gases for heat

The installation of photovoltaic plants in our production units leads to a consumption of clean energy and a significant reduction of the amount of CO₂ emitted by reducing the energy needs of the public network.

Reduction of clean water consumption through recirculation of treated residual water, which consequently reduces discharges into the water domain.

Environmental Conservation: Born Eco products are designed to have a minimal impact on the environment. By using them, the conservation of natural resources, reduction of pollution, and preservation of ecosystems are promoted.

ÉCO CONCEPTION

La recherche continue encourage l'innovation des matériaux, des méthodes de fabrication ainsi que des concepts de design, ce qui amène au développement de nouvelles technologies et de solutions qui favorisent aussi bien l'environnement comme la société. C'est donc avec cet objectif en tête que nous avons créé le concept « BORN ECO » qui regroupe tous les produits qui répondent à une performance environnementale des ressources et qui donnent priorité aux normes écologiques.

Reducing l'impact sur l'environnement, les produits BORN ECO sont pensés pour minimiser la production de déchets générés par le processus de production en les réintégrant afin d'obtenir ainsi une réduction de l'utilisation des ressources naturelles qui peut aller jusqu'à 55 %.

Produire des matériaux moins épais permet une réduction de la consommation de matières premières et par conséquent, aussi la réduction des émissions de procédé qui en résultent.

Investir dans des équipements de haute efficacité permet la récupération de l'énergie du processus de fabrication comme par exemple l'air chaud des fours et les gaz de combustions pour le pré chauffage du produit et le chauffage des atomiseurs.

Installer des panneaux photovoltaïque dans nos unités de production permet la consommation d'une énergie propre, la réduction significative de la quantité de CO₂ émise, la réduction des nécessités d'énergie du réseau public.

Réduire la consommation d'eau propre à travers la réutilisation des eaux résiduelles traitées, réduit les décharges dans le milieu hydrique.

Les produits BORN ECO sont ainsi pensés pour réduire au maximum l'impact environnemental, en les utilisant nous augmentons la conservation des ressources naturelles, la réduction de la pollution et la préservation des écosystèmes.

DESIGN ECO

A pesquisa constante incentiva a inovação em materiais, processos de fabrico e conceitos de design. Isso leva ao desenvolvimento de novas tecnologias e soluções que beneficiam tanto o meio ambiente quanto a sociedade. Com essas premissas em mente, rotulamos como "BORN ECO" todos os produtos que são eficientes em recursos e priorizam a sustentabilidade.

Reducindo o impacto no meio ambiente: os produtos Born Eco são projetados para minimizar a produção de resíduos gerados no processo de produção, que são reintegrados e podem levar a uma redução de até 55% no uso de recursos naturais.

Produtos com menor espessura permitem uma redução no consumo de matérias-primas e, consequentemente, emissões inerentes ao processo devido ao seu consumo e processamento.

Equipamentos de alta eficiência que permitem a recuperação de energia no processo de produção, como ar quente dos fornos e gases de combustão para pré-aquecimento do produto e aquecimento dos atomizadores.

A instalação de painéis fotovoltaicos nas nossas unidades de produção resulta num consumo de energia limpa e a uma redução significativa da quantidade de CO₂ emitido, ao reduzir as necessidades de energia da rede pública.

Redução do consumo de água limpa através da recirculação de água residual tratada, o que consequentemente reduz as descargas no domínio hídrico.

Os produtos Born Eco são projetados para ter um impacto mínimo no meio ambiente. Ao utilizá-los, promove a conservação dos recursos naturais, a redução da poluição e a preservação dos ecossistemas.

A Stunning Collection with a wide spread of colors, blended perfectly with Nature and a range of formats allowing ideas beyond imagination. Due to its technical performance is suitable for high traffic places and enthusiastic for living spaces.

Une collection étonnante avec une large gamme de couleurs, parfaitement mélangées à la nature et une gamme de formats permettant des idées au-delà de l'imagination.

En raison de ses performances techniques, il convient aux endroits à fort trafic et aux espaces de vie.

Uma Coleção Notável, com um enorme leque de cores perfeitamente enquadradas com a Natureza e uma quantidade de formatos que permite ideias para além da imaginação. Devido às suas qualidades técnicas este é o produto perfeito para espaços públicos e apaixonante para espaços residenciais.

PORCELAIN TILES SOFT MATT | GRÈS CÉRAME SOFT MAT
FEINSTEINZEUG SOFT MATT | GRÈS PORCELÂNICO SOFT MATE

Introducing the Soft Matt finishing inspired in our "P21 Architect Collection" signature. Designed with new textures and tactile elements, it captures the perfect balance of light and shadow. The Soft Matt combines the technical quiet strength with the porcelain refined elegance, offering a minimalist design that seamlessly blends form and function.

Présentation de la finition Soft Mat inspirée de notre collection emblématique « P21 Architect Collection ». Avec ses nouvelles textures et éléments tactiles, elle incarne l'équilibre parfait entre lumière et ombre. La finition Soft Matt associe la solidité technique à l'élégance raffinée de la porcelaine, pour un design minimaliste où la forme rencontre parfaitement la fonction.

Apresentamos o acabamento Soft Mate inspirado na nossa coleção emblemática "P21 Architect Collection". Com novas texturas e elementos tácteis, capta na perfeição o equilíbrio entre luz e sombra. O acabamento Soft Matt combina a resistência técnica discreta com a elegância refinada do porcelânico, oferecendo um design minimalista onde a forma e a função se fundem harmoniosamente.

GLAZED VITRIFIED TILES IN WHITE BODY | CARREAUX ÉMAILLÉS EN PÂTE BLANCHE VITRIFIÉE
| STEINZEUG GLASIERT | MOSAICOS VIDRADOS DE PASTA BRANCA VITRIFICADA

Versatile Collection suitable for moderate traffic areas in commercial and residential settings, with classic and timeless colors, blending warm, cold and neutral tones. Its chromatic intensity are unique features to the modern design needs.

Collection polyvalente adaptée aux zones à trafic modéré dans les environnements commerciaux et résidentiels, avec des couleurs classiques et intemporelles, mélangeant des tons chauds, froids et neutres.

Son intensité chromatique est une caractéristique unique aux besoins du design moderne.

Coleção versátil adequada para áreas de tráfego moderado em espaços comerciais e residenciais, com cores clássicas fazendo um "mix" entre cores quentes, frias e tons neutros.

A sua intensidade cromática é única para as necessidades do design moderno.

Exhales energy, enthusiasm and motivation to make our contribution to life.

Inspiré par People, ce carrelage mural Unicolor est plein de vie, une superbe expression d'élégance avec ses tons monochromes soigneusement choisis.
Exhale l'énergie, l'enthousiasme et la motivation d'apporter notre contribution à la vie.

Inspirada nas Pessoas, o Revestimento Unicolor tem vida própria, é uma soberba expressão de elegância com uma paleta de cores cuidadosamente escolhida.
Exala energia, entusiasmo e motivação para dar o nosso contributo à vida.

THE P21 - ARCHITECT BOOK 

FROM NATURE TO NATURAL

PAVIGRÉS®
GRUPO

NATURE AT THE ORIGIN OF EVERYTHING

Sustainable development is the challenge of today's companies. In Pavigrés Cerâmicas, S.A. we are aware of this reality and we take the challenge seriously.

For several years now, there's been a growing environmental awareness in the group, based on a principle of continuous improvement of environmental performance, not only because of the impact that today's actions have on the resources available for future generations but also because of the immediate impact on production costs and competitiveness. The company adopts an approach of environmental protection and pollution prevention, both at the level of production processes and products, trying to reduce the consumption of resources: raw materials, energy and water, which are vital components of all processes.

Reducing resource consumption is one of the main objectives within the Quality and Environmental Management System, according to the ISO NP 9001:2015 and ISO NP 14001:2015 standards, for which the organization is certified. Actions and goals have been defined to try to guarantee this objective. This goal can only be achieved with a proactive attitude, continuously seeking the means that allow us to effectively adapt equipment and processes to new technologies available.

A NATUREZA NA ORIGEM DE TUDO

O desenvolvimento sustentável é o desafio das empresas de hoje. Na Pavigrés Cerâmicas, S.A estamos conscientes dessa realidade e encaramos o desafio com seriedade.

Desde há vários anos tem sido crescente a consciencialização ambiental no grupo, assente num princípio de melhoria contínua do desempenho ambiental, não apenas devido ao impacto que as ações de hoje têm nos recursos disponíveis para as futuras gerações, mas também devido ao impacto imediato nos custos de produção e na competitividade. A empresa adota uma abordagem de proteção do ambiente e prevenção da poluição, tanto ao nível dos processos de produção como dos produtos, tentando reduzir o consumo de recursos: matérias-primas, energia e água, que são componentes vitais de todos os processos.

A redução do consumo de recursos é um dos principais objetivos no âmbito do Sistema de Gestão de Qualidade e Ambiente, segundo as Normas ISO NP 9001:2015 e ISO NP 14001:2015, pelas quais a organização é certificada. Definiram-se ações e metas para procurar garantir esse objetivo. Tal objetivo só se alcança com uma atitude pró-ativa, procurando de forma incessante os meios que nos permitam uma adequação efetiva de equipamentos e processos a novas tecnologias disponíveis.

THE PAVIGRÉS GROUP INDUSTRIAL STRUCTURE

The Pavigrés Group is dedicated to the manufacturing of ceramic floor and wall tiles and consists of 4 production units: Pavigrés and Grespor in Anadia, Cerev in Mealhada and Pavigrés II in Bustos.
We have about 750 employees and an installed capacity of 10 million m²/year.

O GRUPO PAVIGRÉS ESTRUTURA INDUSTRIAL

O Grupo Pavigrés dedica-se ao fabrico de pavimento e revestimento cerâmico e é constituído por 4 unidades de produção: Pavigrés e Grespor em Anadia, Cerev na Mealhada e Pavigrés II em Bustos. Contamos com a colaboração de cerca de 750 trabalhadores e temos uma capacidade instalada de 10 milhões de m²/ano.

GOOD PRACTICES, PILLARS FOR SUSTAINABLE DEVELOPMENT

We focus not only on the impact that today's actions have on the resources available for future generations, but also on the immediate impact that these actions have on production costs and on our competitiveness. Sustainability is based on fighting waste, and it is precisely in the efficiency of companies that their competitive advantage may lie.

This can only be achieved with a proactive attitude, which materializes with the adoption of good practices, already rooted in Pavigrés, and which are part of its Strategy.

BOAS PRÁTICAS, PILARES PARA O DESENVOLVIMENTO SUSTENTÁVEL

Colocamos o nosso foco não apenas no impacto que as ações de hoje têm nos recursos disponíveis para as gerações futuras, mas também no impacto imediato que estas ações têm nos custos de produção e na nossa competitividade. A sustentabilidade baseia-se no combate ao desperdício, e é precisamente na eficiência das empresas que pode residir a sua vantagem competitiva.

Tal só se alcança com uma atitude pró-ativa, que se materializa com a adoção de boas práticas, já enraizadas na Pavigrés, e que fazem parte da sua Estratégia.

ECONOMIC DEVELOPMENT DESENVOLVIMENTO ECONÓMICO

SOCIAL DEVELOPMENT DESENVOLVIMENTO SOCIAL

ENVIRONMENTAL DEVELOPMENT DESENVOLVIMENTO AMBIENTAL

RESOURCE MANAGEMENT - ENERGY EFFICIENCY GESTÃO DE RECURSOS - EFICIÊNCIA ENERGÉTICA

- Recovery of hot air from the cooling zone of the ovens for pre-heating the product in the greenhouses and dryers.
- Recovery of gases resulting from combustion to help heat the atomisers.
- Replacement of atomizers ovens and dryers with new and more energy efficient equipment.
- Installation of high efficiency burners in the ovens.
- Acquisition of high efficiency motors, energy class 3 (IE3).
- Installation of variable speed drives in the motors.
- Replacement of the roofs by translucent tiles that allows the entry of natural light.
- Replacement of the existing lighting by LED lighting.
- Computerized control of energy consumption associated with production equipment, such as atomisers, presses, dryers and ovens, which allows us to check consumption in real time.

- Recuperação de ar quente da zona de arrefecimento dos fornos para pré-aquecimento do produto nas estufas e secadores.
- Recuperação dos gases resultantes da combustão para auxiliar no aquecimento de atomizadores.
- Substituição de atomizadores, fornos e secadores, por equipamentos novos, mais eficientes energeticamente.
- Instalação de queimadores de alto rendimento nos fornos.
- Aquisição de motores de alto rendimento, de classe energética 3 (IE3).
- Colocação de variadores de velocidade nos motores.
- Substituição dos telhados, com aplicação de telhas translúcidas que permitem a entrada de luz natural.
- Substituição da iluminação existente por iluminação LED.
- Controlo informatizado dos consumo energéticos associados aos equipamentos produtivos, como atomizadores, prensas, secadores e fornos, que nos permite em tempo real, verificar os consumos.

RESOURCE MANAGEMENT - ENERGY EFFICIENCY

GESTÃO DE RECURSOS - ENERGIAS RENOVÁVEIS

- In a constant concern for the environmental impact, the Pavigres Group has been investing in photovoltaic plants to increase the use of clean energy and consequently reduce its CO₂ emissions.
- In 2020, we made the first investment with the installation of 2222 photovoltaic panels at the Cerev manufacturing unit. Between 2021 and 2022, we installed 1850 photovoltaic panels at the Pavigres II manufacturing unit.
- In 2023, we reinforced our Cerev manufacturing unit's plant with the installation of an additional 1344 photovoltaic panels.
- Started at the end of 2023, the installation of 10,280 panels at the Pavigres and Grespor manufacturing units was completed in July 2024.
- Currently, the investments made in clean energy correspond, indirectly, to a reduction in emissions of approximately 2421 tons of CO₂ per year.

- Numa constante preocupação com o seu impacto ambiental, o Grupo Pavigres tem vindo a investir em centrais fotovoltaicas de forma a aumentar a utilização de energia limpa e consequentemente reduzir as suas emissões de CO₂
- Em 2020 efetuámos o primeiro investimento com a instalação de 2222 painéis fotovoltaicos na unidade fabril Cerev. Entre 2021 e 2022 instalámos 1850 painéis fotovoltaicos na unidade fabril Pavigres II.
- Em 2023 reforçámos a nossa central da unidade fabril Cerev com a instalação de mais 1344 painéis fotovoltaicos.
- Iniciada em final de 2023, foi concluída em julho de 2024 a instalação de 10280 painéis nas unidades fabris Pavigres e Grespor.
- Atualmente os investimentos efetuados em energia limpas correspondem, de forma indireta, a uma redução de emissões de aproximadamente 2421 ton. CO₂ ano.

- 
- Development of new products with lower thickness, which allows a reduction in the consumption of raw materials and, consequently, inherent emissions to the process by its consumption and processing.
 - Growing demand and substitution of raw materials by similar materials with a reduced carbon content.
 - Regular energy audits that allow a detailed and exhaustive study of the production processes. They also make it possible to determine the investments necessary for the implementation of the measures identified, as well as their profitability and viability.
 - Reduction of clean water consumption through recirculation of treated residual water, which consequently reduces discharges into the water domain.
 - Dry rectification lines, which not only no longer require the use of water in the transformation process, but also allow the reincorporation of the dust from the rectification.
 - The declassification of the raw shard, atomised powder and cooked shard, allows us to forward them as by-products. Regarding the waste generated, we can state that 99.9% of the waste is sent for recovery operations.

RESOURCE MANAGEMENT - RAW MATERIALS

GESTÃO DE RECURSOS - MATÉRIAS PRIMAS

- Desenvolvimento de novos produtos com espessura inferior, que permite a redução de consumo de matérias-primas e, consequentemente, emissões inerentes ao processo pelo seu consumo e processamento.
- Crescente procura e substituição de matérias-primas por similares com reduzido teor de carbono.
- Realização de auditorias energéticas periódicas que possibilitam o estudo detalhado e exaustivo dos processos produtivos. Permitem ainda determinar os investimentos necessários para a execução das medidas identificadas assim como a rentabilidade e viabilidade das mesmas.
- Redução do consumo de água limpa mediante a recirculação de água residual tratada, que consequentemente reduz as descargas no domínio hidráulico.
- Linhas de retificação a seco, que não só dispensam a utilização de água no processo de transformação, como permite a reincorporação do pó proveniente da retificação.
- A desclassificação do caco cru, pó atomizado e caco cozido, permite-nos o seu encaminhamento como subproduto. Relativamente aos resíduos gerados, podemos afirmar que 99.9% dos resíduos são encaminhados para operações de valorização.

We are aware that there is a long way to go and the struggle against obstacles is constant. It is our goal to reduce greenhouse gas emissions as much as possible, and to do everything within our power always with a view to sustainability and environmental protection.

Estamos conscientes que há um longo caminho a percorrer e que o confronto com obstáculos é constante. É nosso objetivo reduzir ao máximo as emissões de gases com efeito de estufa, e fazer o que estiver ao nosso alcance sempre no sentido da sustentabilidade e proteção do meio ambiente.

CHECKING THE MATERIAL
VÉRIFICATION
CONFIRÉNCIA

PRIOR TO THE INSTALLATION, CHECK IF THE MATERIAL CORRESPONDS TO THE DESIRED: MODEL, CHOICE (QUALITY), CLASS (SHADE) AND CALIBRE. CHECK ALL BOXES TO ENSURE THAT EVERYTHING IS CORRECT. KEEP RECORD OF THE DATA OF THE MATERIAL PRINTED ON THE PACKAGING. ANY CLAIMS MADE AFTER THE MATERIAL HAS BEEN INSTALLED WILL NOT BE ACCEPTED BY PAVIGRÉS WHENEVER THE DEFECT WAS PERCEPTIBLE PRIOR TO THE INSTALLATION.

AVANT TOUTE APPLICATION, IL CONVIENT DE VÉRIFIER SI LE MATERIAU CORRESPOND: AU MODÈLE, AU CHOIX (QUALITÉ), AU LOT (LE TON) ET AU CALIBRE DÉSIRÉ. VÉRIFIEZ TOUTES LES BOÎTES AFIN D'AVOIR LA CERTITUDE QUE TOUT EST CORRECT. CONSERVEZ TOUTES LES DONNÉES IMPRIMÉES SUR L'EMBALLAGE. LES RÉCLAMATIONS UNE FOIS LE MATERIAU APPLIQUÉ NE SONT PAS ACCEPTÉES PAR PAVIGRÉS DANS LE CAS OU LE DÉFAUT SERAIT VISIBILE AVANT L'APPLICATION DU MATERIAU.

ANTES DA APLICAÇÃO, VERIFIQUE SE O MATERIAL CORRESPONDE: AO MODELO, À ESCOLHA (QUALIDADE), AO LOTE (TONALIDADE) E AO CALIBRE DESEJADO. VERIFIQUE TODAS AS CAIXAS PARA TER A CERTEZA QUE TUDO ESTÁ CORRETO. CONSERVE OS DADOS DO MATERIAL IMPRESSOS NA EMBALAGEM. AS RECLAMAÇÕES DEPOIS DO MATERIAL APLICADO NÃO SÃO ACEITAS PELA PAVIGRÉS, CASO O DEFEITO SEJA VISÍVEL ANTES DA APLICAÇÃO DO MATERIAL.

THE VARIANTS TO WHICH THE PRODUCTION PROCESS IS EXPOSED CAN CAUSE SLIGHT VARIATIONS ON SHADE TO THE FIXED STANDARD COLOURS.
 THE EQUIVALENCES FROM PAVIGRÉS 21 COLOURS TO PANTONE, RAL AND NCS SYSTEMS ARE PURELY INDICATIVE. PAVIGRÉS HAS RIGHT TO CHANGE OR ELIMINATE, TOTALLY OR PARTIALLY, ANY REFERENCE OR TECHNICAL SPECIFICATION MENTIONED IN THIS CATALOGUE.

LES VARIANTES AUXQUelles LE PROCESSUS DE PRODUCTION EST SOUMIS PEUVENT PROVOQUER DES LÉGÈRES VARIATIONS DE TONALITÉ PAR RAPPORT AU STANDARD ÉTABLI. LES ÉQUIVALENCES ENTRE LES COULEURS PAVIGRÉS 21 ET CELLES DU SYSTÈME PANTONE, RAL ET NCS SONT PRÉSENTÉES À TITRE UNIQUEMENT INDICATIF. PAVIGRÉS SE DONNE LE DROIT DE CHANGER OU SUPPRIMER, PARTIELLEMENT OU TOTALEMENT, TOUTE RÉFÉRENCE OU SPÉCIFICATION TECHNIQUE MENTIONNÉE SUR CE CATALOGUE.

LES COULEURS PRÉSENTÉES SUR CE CATALOGUE NE SONT QU'INDICATIVES. AS VARIANTES A QUE O PROCESSO DE PRODUÇÃO DE CERÂMICA ESTÁ SUJEITO PODEM PROVOCAR LIGERAS VARIACOES DE TONALIDADE EM RELAÇÃO AO PADRÃO DE COR ESTABELECIDO. AS EQUIVALENCIAS ENTRE AS CORES PAVIGRÉS 21 E AS CORES DOS SISTEMAS PANTONE, RAL E NCS SÃO APRESENTADAS A TÍTULO MERAMENTE INDICATIVO. A PAVIGRÉS RESERVA-SE O DIREITO DE ALTERAR OU ELIMINAR, TOTAL OU PARCIALMENTE, QUALQUER REFERÊNCIA OU ESPECIFICAÇÃO TÉCNICA CONTIDA NESTE CATÁLOGO.

AS CORES IMPRESSAS NESTE CATÁLOGO SÃO APENAS INDICATIVAS.
